# SUPERIOR Series 9C Sq. Post Cable Railing

## Modern Styling with a Virtually Unobstructed View

By replacing standard pickets with stainless steel cables, your project can become a spectacle of modern architecture. The cable design creates a stunning unobstructed view without sacrificing design or safety.

Each Superior cable railing system is pre-assembled to the exact specifications of the project, easing the installation burden.

Durable, low-maintenance aluminum ensures each installation is a long-term solution.

### Unblemished Design

Most cable systems require huge turnbuckles to secure cables along with unsightly support pickets... Superior cable railing requires neither!

Superior cable railing removes clutter by hiding all fittings within the post, erasing any potential deterrent to your project's beauty.

# SUPERIOR Series 5C Pipe Cable Railing

## Unique Aesthetic Blending Modern and Industrial Styles

Switching out square components for round pipe transforms cable railing into a nearly unmatched blend of modern and industrial style without sacrificing unimpeded sightlines.

Each pre-assembled, job-specific, section of pipe cable railing is built with a high-quality schedule 40 aluminum pipe framework. The material quality protects against rusting, warping, and rotting for the life of a project.

### No Bulky Fittings!

Pipe cable railing systems with giant turnbuckles or other bulky fastening equipment is the norm in the marketplace. At Superior, we don't conform to what others find acceptable. Instead, all fasteners in Series 5C Pipe Cable Railing are confined to the insides of the pipe framework, saving the aesthetics of your project.

\*Please note that 5C can only be used on level applications and cannot be used for stair applications at this time.

## The Superior Difference

There are many cable railing solutions on the market, so what sets Superior Aluminum apart from the "Other Guys?"

The "Other Guys"

Superior Aluminum

The unmatched durability and strength of each Superior square and pipe cable railing component eliminates the need for the support picket commonly found in most cable railing systems!

The "Other Guys"

Superior Aluminum

Thanks to innovative post and cable technology, the giant, unsightly turnbuckles which feature prominently in other cable railing are nowhere to be found in Superior square or pipe cable systems!

## Finishes

Cable Railing is available in PPG Duracron paint, anodized, and duranodic finishes.
