## Looking for a different spin on a traditional vertical picket railing? We have a solution for you!

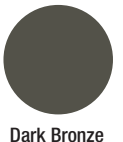

- New Superior Aluminum Horizontal Rail adds a truly unique aesthetical twist to the traditional railing system by flipping things on their side.
- Each horizontal picket is securely fastened into the post via a unique fastening system.
- Lower horizontal lines are reinforced to absorb weight from resting feet or rambunctious children.
- Horizontal rail checks all the code compliance boxes, making it as safe as it is stylish.
- Each project is custom built to the exact size needs of the jobsite...no complicated assembly required!
- Superior Horizontal Railing is built in three PPG Duracron paint finishes.

White

Black

Dark Bronze

A beautiful fit on one balcony...or on multiple!

*Note: Series 9H Horizontal Railing is only available for level applications.*
