COLUMNS

ALUMINUM COLUMNS

Traditional and modern styles combine with load-bearing strength and wrap-around functionality to make aluminum columns ideal for overhanging structures like porches and covered walkways.

- Four unique profiles with multiple size options
- Most columns are fully load-bearing up to certain specifications
- Columns feature wrap-around functionality for easy remodeling
- Smaller sizes can be installed by one person
- All columns are built with durable, maintenance-free aluminum
- Compatible with Superior Aluminum railing

Wrap-Around Functionality

SQUARE FLUTED

Superior's square fluted aluminum columns allow you to enjoy a natural look with minimal maintenance, are load-bearing up to 33,000 pounds, and are available in five finishes.

SQUARE SMOOTH

Superior Aluminum square smooth columns add a sophisticated touch to your project while maintaining a clean look and feel. Simplify your projects with our square smooth columns that are load-bearing up to 50,000 pounds and are available in five finishes.

SQUARE PANEL

Superior's square panel aluminum columns combine the traditional look you desire with a unique panel design that adds a touch of contemporary flair to your project. These columns are load-bearing up to 80,000 pound and available in five finish options.

ROUND FLUTED

Superior's singular choice for round aluminum columns is the traditional-style round fluted column that provides a centuries-old style with load bearing capacity of 80,000 pounds and is available in white, sandstone, and satin anodized finishes.

PATENTED

SNAP-TITE® PVC COLUMN WRAP

The market's only PVC Column Wrap that requires no PVC glue or adhesive. The product simply snaps together for the perfect column wrap!

- Patented design for quick assembly
 - **(Patent No. US11,346,111 B1)**
- Wood Grain and Smooth Textured designs available
- Built with cellular PVC to ensure longevity
- Matches home's exterior trim for a modern, uniform look
- Reduce installation time by up to 80%!
- No PVC Glue needed
- No reason to return next day to remove bungees & perform final touch up
- Paintable using acrylic paint with LRV 55 and above.

Our patented locking mechanism

Snap-Tite® is available in the following two textures:

Smooth Textured

Wood Grain

BEFORE

AFTER

The Problem

In 2022, a newly-constructed retail store had a list of projects that needed to be completed, including finishing up the exterior to become inviting to the public. They, unfortunately, had precious little time remaining before the grand opening. How could they save time and have everything ready by opening day?

The Solution

Wooden support beams were up, but they needed to be covered to match the aesthetic of the building. Column wraps historically take a while to be installed due to the amount of cutting, mitering, gluing, setting, etc. that needs to take place. Instead, the store turned toward Superior Aluminum's brand new Snap-Tite® PVC Columns as a time-saving alternative that did not sacrifice the desired style.

Unlike other PVC Wrap Around Column solutions, Superior's Snap-Tite® PVC Columns' patented design requires

none of the tedious tasks associated with standard column wraps. By simply being able to cut the staves to size and snap them around the wooden supports, the contractor saved over 30 minutes per column. In addition, no second trip was needed to take off straps or clean up excess glue. When all seven columns are considered, the contractor was able to free up an entire half day for one of their employees to be able to complete other punch list items.

The Result

The time saved utilizing Snap-Tite® columns was able to be reinvested elsewhere, allowing the final punch list to be easily cleared in time and the store to have a successful opening.

The average time to assemble a column dropped from 45 minutes to 9 minutes with the new Snap-Tite® PVC columns.

That's a time savings of 80%!

CASE STUDY

**Scan here
to learn
more:**

In addition to our new Snap-Tite® design, Superior also offers the following traditional PVC column wraps:

SMOOTH, FLUTED, & PANEL PVC TRADITIONAL COLUMN WRAPS

- Perfect for covering unsightly support structures
- Weather and insect resistant, nearly maintenance-free!
- Pre-mitered corners for easier assembly

CRAFTSMAN PVC COLUMN WRAPS

- Variety of sizes and tapered lengths for any project desired
- Cellular PVC ensures longevity
- Matches exterior trim for a modern, uniform look

*Please note that all Craftsman & Traditional PVC Column Wraps require PVC Glue

PVC COLUMN FINISHES & PRODUCT DATA

*Please note that all PVC column wraps are non-load bearing and should only be used for decorative purposes.
