SUPERIOR

ALUMINUM PRODUCTS

Superior Aluminum is the market leader in aluminum railing, columns, and fence. Our numerous advantages include:

- Durable, sustainable code-compliant products built with high quality aluminum
- Numerous customization options
- Products that are assembled in the USA

THE SUPERIOR DIFFERENCE

Each Superior Aluminum railing section is fabricated in-house by detailed, hard-working craftsmen to exact jobsite specifications. This enables the industry's most streamlined installation process – simply place & anchor the railing with **minimal on-site assembly!**

ALUMINUM RAILING

Multi-Family Housing

Water Treatment

Commercial Locations

Square posts and pipe railing options both available.

Educational Facilities

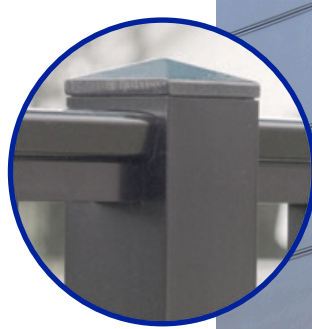

Residential Settings

Athletic Venues

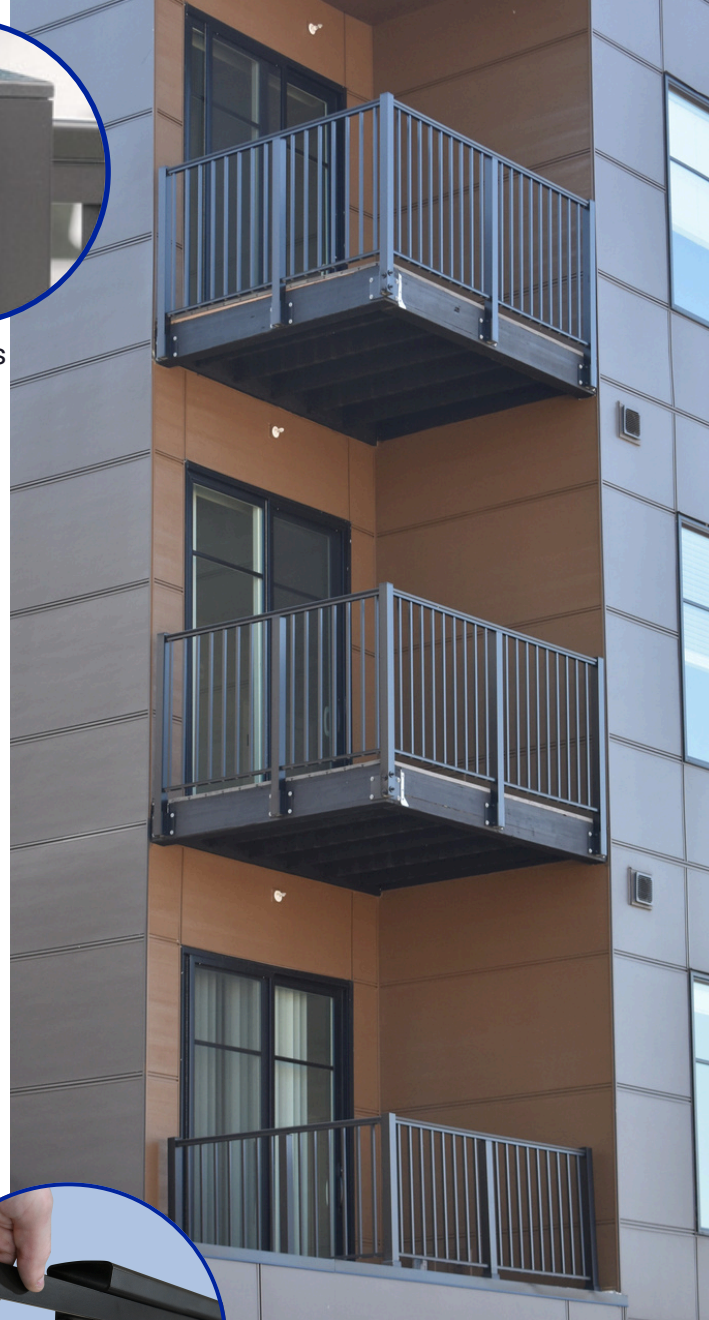

Series 9P Picket Railing

Pocket Posts

A wide array of customization options makes Superior's square post railing series our most popular for both multi-family and residential applications.

- Built with high-quality, durable aluminum extrusions and castings
- Five distinct finish options
- Screw covers and pocket posts remove exposed fasteners and bulky brackets for a streamlined appearance
- Several picket & style configurations adapt to all architectural tastes
- IBC code-compliant for all multi-family installations

Concealed Fasteners

Series 9H Horizontal Railing

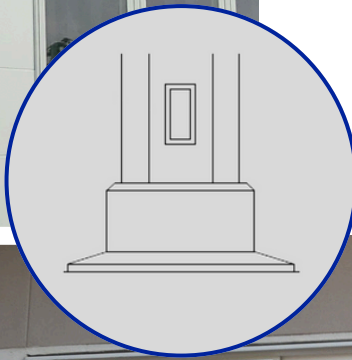

If you're looking to make your project

- attract eyes
- maintain a sleek style
- give a modern appeal

consider Superior's 9H Horizontal Railing. Bringing a contemporary look to the safety and security you've come to trust, Superior's Horizontal Aluminum Railing is sure to set your project apart.

Series 9H is available in level applications only.

Picket-Fastening System

Series 9G Glass Railing

Glass railing from Superior Aluminum features a tempered glass panel that

- fits into the top & bottom rail
- requires no clips
- available in 5 finish options

This series has the same aluminum frame as all other Series 9 styles for a seamless match.

Series 9M Mesh Railing

Mesh railing from Superior Aluminum also uses the standard Series 9 square post frame and is available with the following infill options:

- woven wire mesh (pictured)
- round perforated mesh
- square perforated mesh
- Series 9M is available in 5 finish options.

Interior Cutaway View

Series 9C Cable Railing

By incorporating cutting-edge stainless steel cables in place of pickets, Series 9C Cable Railing provides an unimpeded view of the horizon, while displaying an image of modern sophistication.

- Assembled with premium extrusions, cables, and components
- Allows for unobstructed views over water or scenic landscapes
- Internal fittings eliminate bulkiness
- Meets IBC and IRC requirements

Series 5C Pipe Cable Railing

Trading square components for round pipe transforms cable railing into an unrivaled blend of modern and industrial style without sacrificing sightlines or safety.

- Update modern or industrial settings
- Superior cable systems do not use large visible turnbuckles
- Framework is built with schedule 40 pipe and reinforced posts
- Stainless steel cables resist environmental hazards
- Available in 6 finish options

Series 9H is available in level applications only.

Series 5H Pipe Railing

Series 5H Pipe Railing is a code-compliant guardrail solution that is ideal for athletic venues, water treatment plants, and everything in between. This series:

- features non-welded fasteners
- is available in 6 finish options
- and compliments any Superior railing series as handrail.

◀ Series 5A Assist Railing

Pipe handrail can be added to any series of our stair rail.

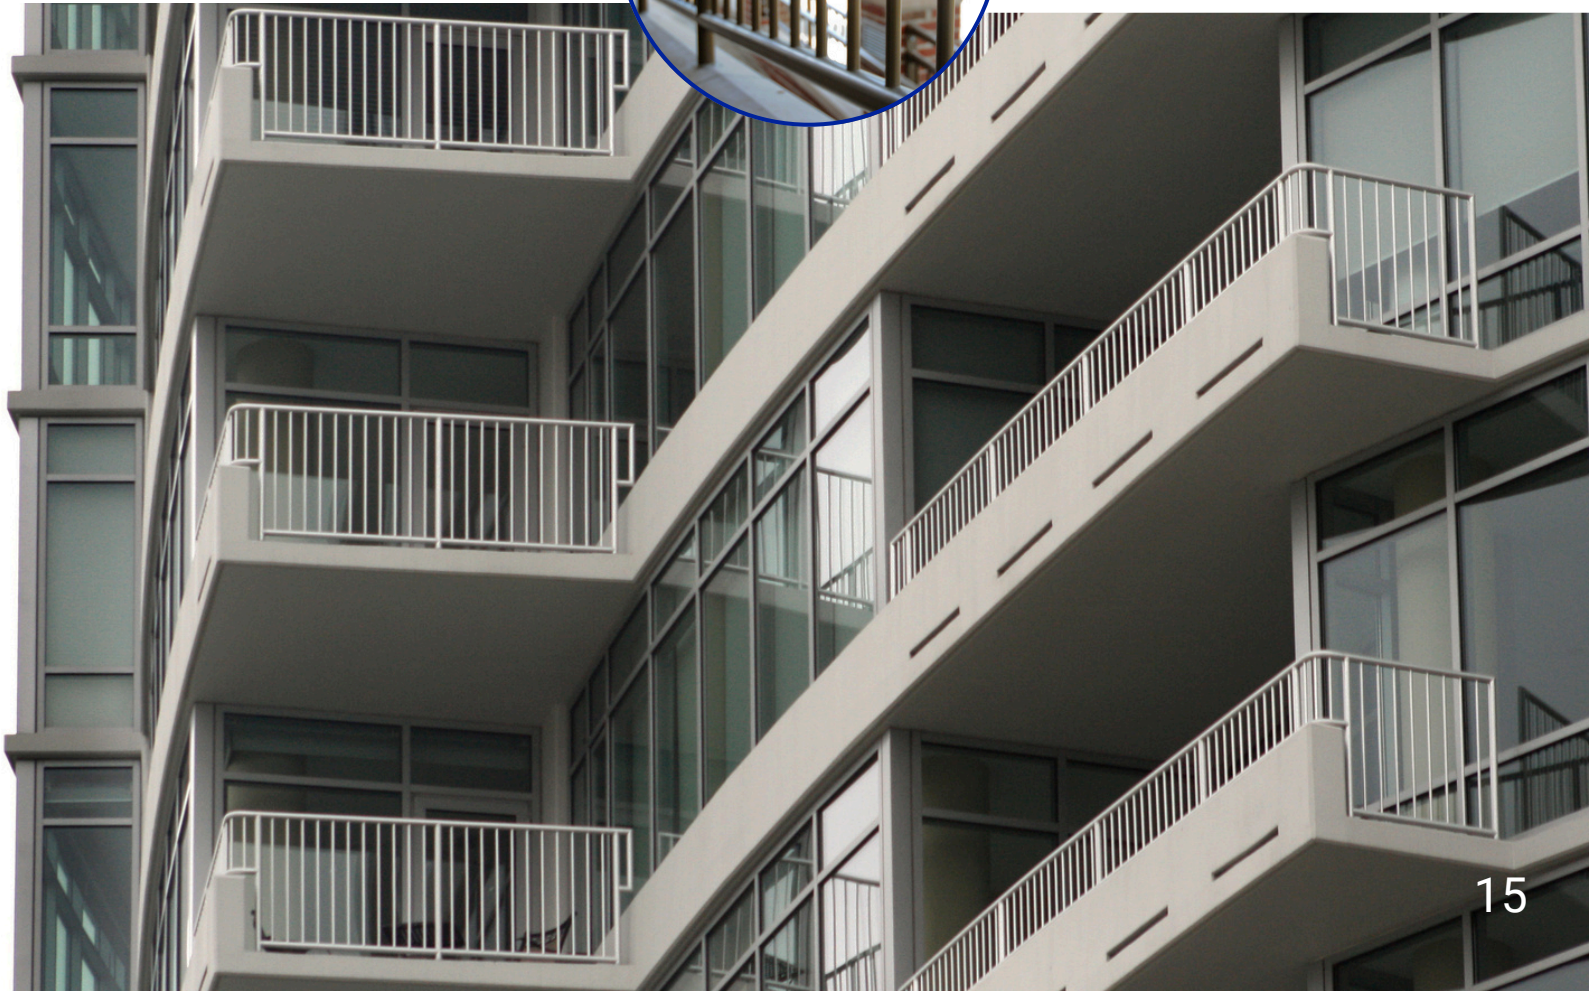

Series 5P Pipe Picket Railing

When seeking an alternative to traditional square post railing, Series 5P Pipe Picket Railing is a popular option. Pipe Picket railing offers:

- an industrial look to compliment specific architecture styles
- concealed fasteners
- code-compliance
- and is also available in all 6 finish options.

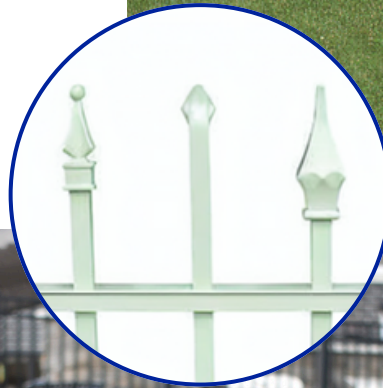

Series 5P Pipe Picket Railing with 5A Assist Rail

Series 7P Picket Fence

If you're looking for a customizable barrier for a pool, backyard, stadium, or other project, Superior Aluminum's Series 7P Picket Fence is the way to go. With custom picket options, multiple finish selections, and a few different styles to choose from, our picket fence is available to secure your area and meet code requirements.

Custom picket options are available

Series 7V Privacy Fence

Series 7V Privacy Fence is Superior's solution for hiding unsightly equipment and HVAC units. Available in white, black, dark bronze, and gray, Series 7V Privacy Fence can be used on a variety of applications, comes pre-assembled, and offers the benefits of low-maintenance aluminum.

Custom Gates

All fence and railing product lines can include customized gates for easy entry points.

- Gate design and size are fully customizable and available in each series offered
- Several latch and hinge options are available based on your project's needs

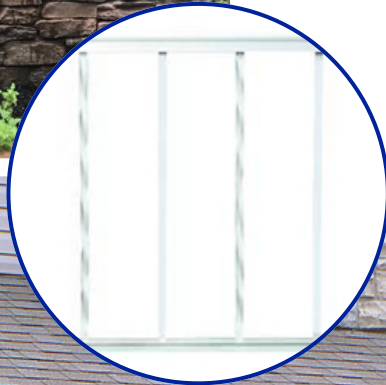

Gate latch options ▶

Series 6E Economy Railing

Superior's line of economy railing was designed for the residential market. This line offers affordable railing solutions with multiple ornate customization options. Ask us about the ways Series 6E can be modified to make it your own!

Straight and Twisted Pickets

Railing Finishes & Data

*Series 5C is currently available in level applications only.

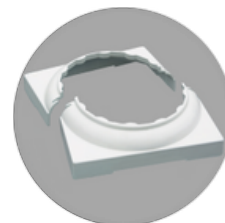

ALUMINUM COLUMNS

Traditional and modern styles combine with load-bearing strength and wrap-around functionality to make aluminum columns ideal for overhanging structures like porches and covered walkways.

- Four unique profiles with multiple size options
- Most columns are fully load-bearing up to certain specifications
- Columns feature wrap-around functionality for easy remodeling
- Smaller sizes can be installed by one person
- All columns are built with durable, maintenance-free aluminum
- Designed to have the same finish as and be compatible with Superior Aluminum railing

Wrap-Around Functionality

SQUARE PANEL

Superior's square panel aluminum columns combine a traditional look with a unique panel design that adds contemporary flair to your project.

SQUARE SMOOTH

Superior Aluminum square smooth columns offer a sophisticated touch while maintaining a clean look and feel.

SQUARE FLUTED

Superior's square fluted aluminum columns allow you to enjoy a natural look with minimal maintenance.

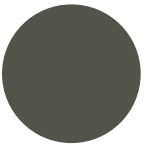

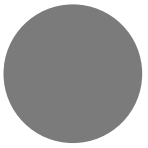

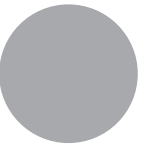

ROUND FLUTED

Superior's singular choice for round aluminum columns is the round fluted column, which provides a centuries-old style available in white, sandstone, and mill finishes.

ALUMINUM COLUMN FINISHES & PRODUCT DATA

White	Black	Dark Bronze	Gray	Sandstone	Mill
					

Standard

Alternate color options

All columns are available in white. Ask a Superior Representative about size availability in alternate colors. Mill is unfinished aluminum that can be painted for custom coloring.

The largest sized support structure that can be enclosed by the corresponding wrap-around column.
Tested lengths are underlined.

Snap-Tite® PVC Column Wraps

Snap-Tite® PVC column wraps are Superior's patented PVC columns that are designed to save installers' time. These wraps simply snap together, requiring no gluing or mitering. Assemblers are saving an average of 30 minutes per column with Snap-Tite!

Our patented locking mechanism

Benefits of Snap-Tite®

***PATENTED
DESIGN***

***INSTALL IN
UNDER 10
MINUTES***

***NO GLUE OR
BUNGEEES***

***2 STYLE
OPTIONS***

Snap-Tite® column wraps are available in 6" and 8" wide and lengths of 8' or 10'. The 6" column is designed to wrap a 4" x 4" post and the 8" column is designed to wrap a 6" x 6" post.

PVC Columns

Superior's traditional PVC columns are available in square smooth, square fluted, square panel, tapered smooth, and tapered panel. Unlike Snap-Tite®, these columns do require adhesives and straps to install. If you're looking for a lightweight solution for wrapping your posts, Superior's PVC columns are the perfect fit!

Fiberglass Columns

If you need strength and load-bearing support coupled with elegance and durability, look no further than fiberglass columns from Superior. We offer six diverse profiles that include tapered and non-tapered designs. Couple that with eight cap and base options for endless combinations. Superior's fiberglass columns are load bearing up to 20,000 pounds.
