

ALUMINUM PIPE RAILING FOR
WATER TREATMENT PLANTS

Series 5E Pipe Railing

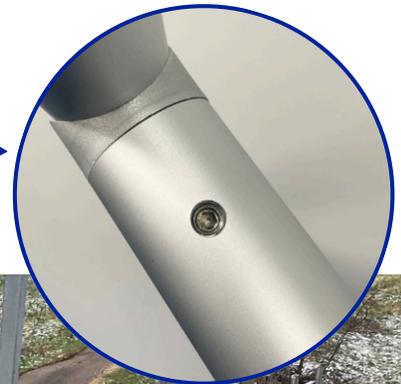

Non-welded, corrosion resistant aluminum makes Superior's Pipe Railing an ideal solution for water treatment facilities. The pipe railing system is fully customizable to meet each plant's specific requirements.

- Constructed with sturdy 1.5" Schedule 40 pipe (1.9" OD). All posts come with reinforcement rods.
- Railing is made with 6063-T4 and 6063-T6 alloys
- Bent in-house to meet any radius requirements
- Multiple mounting options depending upon project specifics

A Code-Compliant Solution

All national codes and regulations are easily met by Superior Pipe Railing. Systems can be customized to meet unique local circumstances.

- Field installation is fast and efficient thanks to the pre-assembled nature of the product
- Railing ships within 2-4 weeks of shop drawing approval - which is significantly faster than the industry average!
- Multiple toe plate styles available depending upon project layout

Multiple base options for different mounting requirements
